OnePlus are constantly working to improve the user experience. They strive to continuously improve their products with every generation. Because OnePlus users are some of the most discerning and tech-savvy in the world, they wanted to deliver these key improvements through an upgraded device to provide the best user experience today.

OnePlus have launched their new 5T claiming it to be their most complete and competitive product ever, with added features and new strides in hardware based on customer feedback. Key camera improvements enhance clarity and low-light photos, fingerprint and advanced facial recognition mean quick and convenient unlocking and added security, an essential aspect for any device being used for business. Add to that a day's power in half an hour with Dash Charge and you have a device that is made for business.
