

The Virtual Dementia Bus is coming to The Hollies

By replicating the mid-stages of dementia, the bus aims to help attendees:

- Understand the physical and sensory changes a person living with dementia may experience
- Understand how the environment can help or hinder individuals
- Identify ways to improve communication
- Understand how people may feel in an unfamiliar environment or situation
- Identify ways to communicate with and support people living with dementia
- Understand how to challenge the stereotyping and labelling of people living with dementia

12th March 2020

Session Times:

09.30 - 12.00

12.15 - 14.45

15.00 - 17.15

Spaces are strictly limited to 12 people per session. To find out more or to book a space contact The Hollies manager Deborah.

"The need to have a better understanding of the physical effects of dementia is so important for anyone that comes into direct or indirect contact with people living with a dementia. Giving the ability to walk in the shoes of people with dementia is an inspirational experience and one that has changed the way I view people who live with dementia."
